

ABC Technologies - Frequently Asked Questions (FAQ)

Account Management

Q: I forgot my account password. How do I reset it?

A: To reset your password, navigate to the main login screen and click the "Forgot Password" link located directly below the login button. Enter your registered email address, and our system will send you a secure password reset link within 5 minutes. If you do not see the email, please check your spam or junk folder. The link expires after 24 hours.

Q: How do I update my billing email address or payment method?

A: Log in to your account, click on your profile picture in the top right corner, and select "Account Settings". From the left-hand menu, navigate to the "Billing" tab. Here you can update your billing email address, add a new credit card, or switch your payment method to PayPal.

Q: How do I deactivate or permanently delete my account?

A: For security reasons, account deactivation cannot be done via the dashboard. It must be requested through our support portal. Please note that account deactivation is permanent. The process requires a supervisor's approval to ensure all data compliance and legal retention standards are met before your data is queued for deletion.

Product Usage

Q: Can I export my customer data to another CRM?

A: Yes. Basic plan users can export data as a CSV file. Professional and Enterprise users can export data in CSV, JSON, or XML formats, or utilize our REST API to sync data directly to external tools.

Q: How do I invite a new team member to my workspace?

A: If you are an Admin on a Professional or Enterprise plan, go to "Workspace Settings" -> "Team Management" -> "Invite User". Enter their email address and assign them a role (Admin, Editor, or Viewer). They will receive an email invitation to set up their account.

Q: What happens when my 14-day free trial ends?

A: When your trial ends, your account will be temporarily frozen. You will not lose your data, but you will need to select a Basic, Professional, or Enterprise subscription plan and enter payment details to regain access to your dashboard.
